

Product Guide

For Healthcare Professionals

Orgain.

The Orgain® Story

As a teenager, I battled an aggressive form of muscular cancer, an experience that not only revealed to me the power that nutrition has in changing lives, it served as the spark of an idea that would later become Orgain. I struggled to maintain my weight during my treatment and at one point my doctor expressed serious concerns about malnutrition and handed me a conventional nutritional shake. A look at the label revealed dozens of artificial ingredients, many of questionable nutritional value.

In pursuit of a healthier alternative, I became a “blender virtuoso,” concocting smoothies in my mom’s kitchen using a variety of whole foods to get the nutrients I needed. With every pound I gained, my strength to fight this disease increased.

During my medical residency and beyond, I led with nutrition and preferred to treat my patients with a grocery list, not a prescription pad. It was eye opening for me to experience firsthand how food care was solving healthcare in real-time. However, through my work as a medical doctor, I could help hundreds, maybe thousands over my career. Or I could help millions by making good, clean nutrition more accessible to consumers.

This underlying belief in the power of nutrition coupled with my relentlessly high standards for quality and taste go into everything we create at Orgain. That means we go above and beyond in hand-selecting the best ingredients to maximize nutrition and craft an unmatched taste experience.

Enclosed you will find a selection of delicious products so that you can familiarize yourself with some of our most popular options.

IN GOOD HEALTH,

Andrew Abraham, M.D.

Founder, Cancer Survivor & Food Entrepreneur

Frequently Asked Questions

What is Orgain?

Orgain® is a line of nutritional products including nutrition shakes, protein shakes, protein powders, protein bars and dietary supplements that are packed with nutritious, high-quality ingredients. Just as important as what's in Orgain products is what's not in them: most Orgain products are Certified Organic and don't contain GMOs, artificial preservatives, and sweeteners and all Orgain products are made WITHOUT soy ingredients, gluten, corn syrup, artificial flavors, and colors from synthetic sources.

Why is it called Orgain?

The name Orgain was created by the founder of the company, Dr. Andrew Abraham, by combining the words “organic” and “gain.” Orgain has a deep commitment to using organic ingredients, and we believe that people can “gain health, gain energy, and gain life” through clean, wholesome nutrition. Dr. Abraham has personally experienced dramatically improved health and energy by making changes to his diet.

Where can I buy Orgain products?

Orgain products are available at Orgain.com, at more than 40,000 retail store locations nationwide, and at e-commerce sites like Amazon.com.

Why does Orgain taste so much better than other nutritional products?

The inspiration for the Orgain formulations comes from Dr. Abraham's kitchen, so the focus is always on real, food-based ingredients. Using premium ingredients like organic cocoa, organic vanilla bean flavors and real organic fruits and veggies makes for delicious products that taste like they come from the kitchen instead of a lab.

Are any of the top 9 major allergens* (soy, wheat, eggs, fish, crustacean shellfish, milk dairy, peanuts, tree nuts or sesame) found in Orgain's products?

Most Orgain products are made without eggs, wheat, soy, and crustacean shellfish ingredients. Peanuts, tree nuts, fish, wheat grain, milk dairy and sesame are used as ingredients in select products; however, several Orgain products are made without any of the major allergens. If any of the 9 major allergens are present in the product, a “contains” statement will be included on label immediately after the list of ingredients. Please check the list of ingredients for each specific product you are considering.

What is the shelf life of Orgain products?

Powder products are guaranteed best quality 2 years from the date of manufacture if left unopened. Ready-to-drink shakes, bars, and almond milks are guaranteed best quality 12 to 15 months (depending on the product) from the date of manufacture if left unopened. The best before date is printed on the packaging. We do not recommend consuming a product passed the best before date.

How should I store my products?

Orgain powders, bars, unopened ready-to-drink shakes, and unopened almond milks are safe when stored at room temperature in a cool, dry place.. Because they taste best when served cold, ready-to-drink shakes and almond milks can also be stored in the refrigerator.

Ready-to-drink shakes should be consumed within two hours after opening if not refrigerated and within 72 hours after opening, if refrigerated. Almond milk should be refrigerated after opening and consumed within 7 days. Powder products mixed into a drink or shake should be consumed within two hours and 24 hours, if refrigerated.

*Food allergen declaration is as defined by the Food Allergen Labeling and Consumer Protection Act of 2004.

Are any Orgain products eligible for reimbursement?

Orgain Organic Nutritional Shakes, Plant-Based Nutritional Shakes, and Kids Protein Organic Nutritional Shakes and Kids Plant-Protein Organic Nutritional Shakes have HCPCS reimbursement codes. Several national durable medical equipment companies (DMEs) carry Orgain and can help eligible patients obtain insurance coverage for oral nutrition use or tube feeding.

How can I get samples of Orgain products for my patients?

Approved Healthcare Ambassadors have access to the Healthcare Ambassador Sampling Portal, where requesting samples is quick and easy. Orgain allows Healthcare Ambassadors to request samples for their practice (to use in consultation with patients or clients) or to send samples and discount offers directly to patients or clients.

Visit healthcare.orgain.com/ambassador to request an ambassador account.

going from good to better

Orgain[®] is Proud to be a Certified B-Corporation.

Certified

Corporation

We're proud to announce that Orgain has earned its B Corp™ certification, joining a growing movement of like-minded businesses balancing purpose and profit to positively impact the planet and the people living on it. This achievement marks an important milestone in Orgain's ongoing efforts to be force for good, in the world which began with our founding mission to provide **accessible, clean nutrition for all.**

In keeping with our founding mission, Orgain works closely with non-profits and individuals, donating time, dollars and most importantly, food, to ensure real nutrition gets in the hands of those who need it most. In 2023, Orgain donated over 400,000 meals to those in need of nutrition with plans to increase that in 2024.

Leading with purpose.

Let's take a peek under the lid, wrapper, and cap!

- Approximately, 80% of our products are USDA-certified Organic meaning only Organic approved pesticides are used on the products.
- Reduced our plastic powder containers by 40% which eliminates 30,000 lbs of plastic annually.
- 100% of our suppliers are audited for quality and food safety assurance.

To find out more about Orgain's ongoing efforts to expand access to clean nutrition and implement sustainable practices, visit our Feel Good Food page at [Orgain.com](https://www.orgain.com).

We believe in better – better ingredients, better products, better business standards. That's why we continue to work on every facet of our business in order to serve our customers, business partners, employees, and planet in a more meaningful way. Because better is good for everyone.

The Many Ways Orgain Supports Healthcare Professionals

Orgain Healthcare is Committed to Supporting Healthcare Professionals

Healthcare Ambassador Program & Sampling Portal

Easily request Orgain samples for your practice, send starter kits to your patients' homes and more with Orgain's sampling program.

Orgain Healthcare App

Review our product catalog, access the Healthcare Ambassador Sampling Portal, listen to our podcast, watch webinars, review resources, and more.

Wholesale Pricing Program

Allowing healthcare professionals, hospitals and sports teams the ability to purchase Orgain products at a consistent discounted wholesale price for reselling within the practice or for offering to patients, clients or athletes.

Orgain Healthcare Ambassador Collective Private Facebook Group

A forum to connect with your peers and to exchange ideas and information. Orgain's healthcare team joins you to create a valuable network for sharing experiences and best practices along with product information, educational opportunities and more.

Professional Education Webinar Series

Provides healthcare professionals with valuable and empowering free professional education, presented by subject matter experts, on topics chosen by you and your peers.

The Good Clean Nutrition Podcast

Stay in-the-know on the hottest trending topics in health and nutrition with The Good Clean Nutrition Podcast, hosted by Ginger Hultin, MS, RDN, CSO, an integrative dietitian nutritionist.

Monthly Science Based Briefs and Newsletters

Monthly updates on hot topics in health and nutrition, Orgain products news, recipes, and more.

Complete Business Dietetic Internship

Orgain invests in the future of the nutrition profession by providing an opportunity for dietetic interns to learn from and gain practical guidance from Orgain's credentialed practitioners.

Ambassador Advisory Panel

A panel of of healthcare professionals from a variety of specialties, working in patient and client facing settings. These practitioners provide consulting support, insights, and recommendations from their respective areas of expertise with the Orgain Healthcare team.

Registered Dietitians Available to Answer Questions

We're here to help answer questions, provide support, and to identify ways to collaborate.

Athletes Fuel with High Quality Nutrition

Orgain is proud to be a charter partner of the American Sports Performance Dietitians Association whose mission is to create leaders who elevate the profession of Sports and Performance Nutrition through ethical, science-based, cutting-edge care.

· A · S · P · D · A ·
FUELING VICTORY®

100+ professional and college teams use Orgain to help fuel their athletes. Orgain is increasingly chosen by sports dietitians for our wide range of delicious protein options to keep athletes at their peak.*

*Data on file

Orgain is proud to have presence in every hospital, oncology hospital, and children's hospital featured on the U.S. News 2024-2025 Best Hospitals Honor Roll**
