

The Many Ways Orgain Supports Healthcare Professionals

Healthcare Ambassador Program & Sampling Portal

Easily request Orgain samples for your practice, send starter kits to your patients' homes and more with Orgain's sampling program.

Orgain Healthcare App

Review our product catalog, request samples and send product recommendations to your patients, and more.

Orgain Healthcare Ambassador Collective Private Facebook Group

A forum to connect with your peers and to exchange ideas and information. Orgain's healthcare team joins you to create a valuable network for sharing experiences and best practices along with product information, educational opportunities and more.

Wholesale Pricing Program

Allowing healthcare professionals, hospitals and sports teams the ability to purchase Orgain products at a discounted wholesale price for reselling within the practice or for offering to patients, clients or athletes.

Orgain Healthcare is Committed to Supporting Healthcare Professionals

The Good Clean Nutrition Podcast

Stay in-the-know on the hottest trending topics in health and nutrition with The Good Clean Nutrition Podcast, hosted by Mary Purdy, MS, RDN, an integrative dietitian and nutrition educator.

Monthly Science Based Briefs and Newsletters

Monthly updates on hot topics in health and nutrition, Orgain products news, recipes, and more.

Nutrition Advisory Board

Board members help to represent the needs of practitioners and provide credible sources of science based information to help guide our mission.

Professional Education Webinar Series

Provides healthcare professionals with valuable and empowering free professional education, presented by subject matter experts, on topics chosen by you and your peers.

Registered Dietitians Available to Answer Questions

We're here to help answer questions, provide support, and to identify ways to collaborate.

Komplete Business Dietetic Internship

Orgain invests in the future of the nutrition profession by providing an opportunity for dietetic interns to learn from and gain practical guidance from Orgain's credentialed practitioners.
